

**Documentation of Grandfathered Software**  
**- Background and Description -**  
**(applicable only to Grandfathered Software, i.e. software originally released**  
**prior to October 17, 1997)**

Please carefully complete this form, and forward to your organization's Software Release Authority (SRA). If you do not know who the SRA is for your organization, please contact Stuart Pendleton, LaRC Center Software Release Authority, at ext. 4-2943.

**Tracking number from Grandfathered Software List:** LAR-                      -GS

**Descriptive Software Title** (and Software Acronym/Nickname, if appropriate):

**Innovators** (please list each software developer):

**% Contributions of Innovators** (estimate each individual's percentage contribution):

**Innovators' Employers When Innovation was Made:**

**Employer Status for Each Innovator** (e.g. Government, college or university, non-profit organization, small business, or large entity):

**Brief Abstract** (general description of the software, describing its purpose, capabilities, and applications):

**Please describe any potential aerospace applications, origination from aerospace related activities, or actual aerospace uses of the software:**

**Degree of Technological Significance:**

- ☐ Modification to Existing Technology
- ☐ Substantial Advancement in the Art
- ☐ Major Breakthrough

**State of Development** (please check all that apply):

- ☐ Development
- ☐ Beta
- ☐ Mature
- ☐ Used in Current Work

**Please indicate any past, present, and/or future contemplated government use of the software:**

**Has any innovator received an invention award for release of the software?**

- ☐ Yes   ☐ No   ☐ Not sure

If yes, please provide the individual innovator/award recipient name(s), award title(s), and approximate date(s) of receipt:

**Who originally requested the development of the software, and for what purpose?**

**Who was the first recipient of the software for an operational (non-developmental) use?**

**What was the approximate date of the release to that recipient?**
